

WILSON DIRECTS  
FILING OF SUITOrders Action to Dissolve New  
Haven System.

PROSECUTIONS ARE PROBABLE

President Writes Letter to Attorney General McReynolds Directing Suit Under Sherman Law to Break Up Railway System and Orders Criminal Aspect of Case Be Laid Before Federal Grand Jury.

Washington, July 22.—The long continued effort to untangle the New Haven railroad situation without litigation came to an end when President Wilson, in a letter to Attorney General McReynolds, directed the institution of a Sherman law suit to dissolve the system and ordered that the "criminal aspects of the case" be laid before a federal grand jury.

The president's approval of the course mapped out by the department of justice means that the civil suit will be filed against the New Haven in the United States court at New York at once. The attorney general also immediately will direct United States District Attorney Marshall at New York to summon a grand jury before which evidence will be presented as soon as possible.

It was plainly indicated that the attorney general expects to ask for a bill against Charles S. Mellen, former president of the New Haven. The most significant fact in connection with the proceedings was said to be a statement which Mr. McReynolds gave out several months ago when the interstate commerce commission began its New Haven inquiry.

The attorney general warned the commission to consider whether immunity might be given certain men if made to testify as to their actions as directors of the road. The names he mentioned were: Charles S. Mellen, William Rockefeller, George Maculloch Miller, Charles F. Brooker, Edwin Milner, Lewis Cass Ledyard, George F. Baker and Edward D. Robins.

President Deplores Action.

In addition to directing suit the president declared that the decision of the New Haven directors not to keep their agreement to dissolve peacefully had caused him "the deepest surprise and regret," and that their failure "upon so slight a pretext" was "inexplicable and entirely without justification."

One of the most interesting phases of the correspondence was contained in the attorney general's letter to President Wilson in which there is a decided rebuke for the interstate commerce commission for its action in subpoenaing Mellen and "perhaps others flagrantly culpable" with the possible result of embarrassing the department by a claim of immunity in return for their testimony.

In this connection the attorney general makes the statement that criminal prosecutions always have been in mind and that there never has been "the slightest hope that parties guilty of criminal violations of the law would escape."

It has been an open secret for weeks that the department has what it believes is evidence that Mr. Mellen gave testimony to the commission contradicting evidence in the possession of the attorney general and it is possible that if any claim of immunity is raised it will be fought on this issue. The case was discussed at the cabinet meeting and the department's course approved.

STATE BANKS PROSPEROUS

Minnesota Institutions Show Big Gain for Year.

St. Paul, July 22.—From the bank call of June 4, 1913, to that of June 30, 1914, the deposits in state banks in Minnesota increased \$21,087,133.59 and the loans and discounts \$20,974,835.25, as shown in a table issued by Albert H. Turrittin, state superintendent of banks.

Of the increase in deposits \$11,728,280.87 was in time certificates, \$6,247,502.94 in checking accounts and \$2,657,625.37 in savings deposits.

In June, 1913, there were 790 state banks reporting and this year there were 857.

"The state banks were never so prosperous," said Mr. Turrittin.

LEADERS TALK

AGREEMENT SEEMS IN SIGHT

British Monarch Points Out Seriousness of the Situation and Narrow Margin of Difference Which Exists and Expresses Hope of a Friendly Solution of All Difficulties.

London, July 22.—In compliance with the king's summons, which all speak of in accordance with the time honored tradition as "command," the eight party leaders most vitally concerned with a settlement of the home rule deadlock met at Buckingham palace in an effort to reach an agreement.

The king received them with a speech which also, according to constitutional custom, was framed by the prime minister. In his speech the king pointed out the seriousness of the situation and the narrow margin of difference which exists and expressed the hope of a friendly solution of all difficulties.

The eight leaders, some of whom were not on speaking terms, included John Redmond, the Irish Nationalist leader, and John Dillon, who never before had come into personal contact with the king. They discussed the situation for more than an hour and then adjourned.

Agreement Seems in Sight.

The mere fact that they will have another meeting shows that as far as the principals are concerned—and the principals are of course the leaders of the Liberal and Conservative parties—an agreement is in sight. But agreement by the principals does not portend by any means a definite settlement of any scheme for the future government of Ireland.

The Conservatives have the Ulster covenants, represented in the conference by Sir Edward Carson and Captain James Craig, to reckon with and Premier Asquith cannot deliver any goods without the consent of the home rule leaders, Redmond and Dillon. Moreover, the labor party, which is an important fraction of the premier's present majority in the house of commons, is in revolt and there is a bolting contingent in his own party.

Politicians who are conversant with the inside workings predict that if the conference reaches any agreement the house of commons will throw it out.

Ulster May Be Excluded.

The fact that the prime minister considers it necessary to resort to such a conference is hailed by his opponents as a virtual surrender on his part. His opponents prophesy and his real supporters fear that he will consent to Sir Edward Carson's loudly proclaimed ultimatum of a clear cut exclusion of the whole of Ulster from the projected new Irish government.

Parliamentary experts assert that if such an agreement is laid before the house of commons it will be defeated, because Mr. Asquith's majority is dependent upon the Irish and labor members and all the Irish and labor members, with at least thirty leading Liberals, will vote against it.

John Redmond and Sir Edward Carson represent their supporters, the Orange Ulstermen and the Catholic Nationalists, respectively, and both Irish factions are in an attitude not only of no surrender, but also of no compromise.

Messages from all parts of Ireland say that the Nationalists and the Orangemen are absolutely at the fighting point and will not listen to any talk of compromise.

Brussels, July 22.—Mme. Cayat de Castella was dashed to death from a height of 1,000 feet. A new parachute she was testing from the biplane of Aviator Champel failed to work and thousands of spectators, among them her husband, saw her drop.

Mme. Cayat de Castella previously had made a number of successful drops by means of an automatic detachable parachute.

RETICENT ON MEDIATION

Federal Arbitrators Refuse to Discuss  
Progress.

Chicago, July 22.—Members of the federal board of mediation and conciliation, here to bring peace to the ninety-eight Western railroads whose employees have demanded a wage increase, were reticent as to the progress of the mediation.

Members of the railroads and the engineers' committees also refused to state whether the first day's meeting had resulted in any progress toward a settlement of the disagreements.

Two sessions were held.

PLAN PEACE CELEBRATION

Delegates From United States and  
Canada Meet.

Macinack Island, July 22.—Delegates from American states and Canadian provinces from the Atlantic to the Pacific which have dwelt in peace for ninety-nine years met here to lay plans for a fitting celebration.

Alton B. Parker of New York, chairman of the conference, explained that the celebration is meant to call the attention of the world to the fact that heavy armaments are not necessary to the preservation of peace. No greater argument can be used, he said, than the fact that neither Great Britain nor the United States has found it necessary to fortify the boundary line or maintain fleets on the Great Lakes.

a Possibility.

Washington, July 22.—Armed intervention by the United States in Hayti was discussed by administration officials upon the receipt of dispatches from diplomatic agents saying great losses would be suffered in the island republic by the ravages of revolution.

No active steps have been taken, but the situation has advanced to a point where, under pressure from European powers, a movement into Hayti and perhaps the Dominican republic of marines already mobilized at Guantanamo was among the possibilities.

Secretary Bryan would say no more than that troops had not been asked for by the state department. No arrangements have been made for augmenting the force at Guantanamo by any of the marines and troops at Vera Cruz.

Atoka, Okla., July 22.—Proceedings asking that the Texas company, an oil pipe line and purchasing corporation, and the Producers' Oil company and Central Petroleum company, producers of crude petroleum, be ousted from Oklahoma have been instituted in the district court here. The petition charges the Texas company, as the parent corporation, and the producing companies, as subsidiaries, violated the state anti-trust laws in their alleged combination.

The state's petition asks that fines aggregating \$4,000,000 be imposed.

GALESBURG REVIVES  
ANCIENT BLUE LAW.

Galesburg, Ill., July 22.—By resurrecting a city ordinance passed nearly fifty years ago forbidding trade, amusements and games on Sunday, the Galesburg city council has launched a campaign of literal law enforcement which will forbid even the sale of newspapers, soft drinks, cigars and candy on the Sabbath. Only drug stores, restaurants, hotels and livery stables will be permitted to do business.

LAND LAWS PROVE  
UNSATISFACTORYCongress Finds Difficulty In  
Passing Adequate Bill.

MANY MEASURES PENDING.

Each Locality Has Different Needs, and No One Measure Can Cover the Entire Country—One Bill Introduced Which Would Clear Up All Questions of the Age if It Should Pass.

By ARTHUR W. DUNN.

Washington, July 22.—[Special.]—Almost from the beginning of the government congress has been legislating upon land laws. Some liberal land legislation has been passed, and the statute books are loaded down with laws relating to the public lands of the United States.

And yet they do not seem satisfactory, for there are hundreds of bills pending in congress now to change the land statutes. Of course the changing conditions of the country have something to do with it. The development of coal and minerals and the necessity for irrigating lands has caused a great deal of legislation.

Nearly every senator from a public land state has bills pending which he thinks are necessary, but which in reality apply to local conditions in his state. It will probably be impossible to enact a land law which will be general and satisfactory to every part of the country.

A Public Benefactor.

From time to time a man comes to Washington with the idea that he can change the economic conditions of the country by a simple act of legislation. One of these men had a bill introduced "by request," which means that the man presenting it did not stand for it. It contained thirty-seven sections and, of course, many appropriations, but its title is enough to explain what it is intended to do.

The bill provides for "raising additional revenue, for re-establishing, in the distribution of the burdens and benefits of government among the people, a condition of equity in its complex relation to the citizens and their prosperity; for creating a fund for the payment of pensions and for setting our army of idle laborers at work on extensive public improvements, for removing the strongest incentive to crime among the poor and to vice among the rich."

If all that could be brought about by a simple act of legislation there is really no reason why congress should not pass it and then adjourn, but such days of legislative enactments have never been reached in this country.

Convict Labor.

One of the many problems that confront legislators not only in the national congress, but in the states, is the employment of convicts. That men in prison must be employed to keep them from going insane is a well known fact, but often the products of their labor compete with the products of the workmen, and labor unions have made a great protest against that.

Discussing the convict labor bill one day, Congressman Sherley of Kentucky thus outlined what he thought should be done with the convict: "He should be put at remunerative work, charging him with his upkeep, crediting him with his labor, and the difference between what he earns and what he costs should go either to his dependent family or to the man himself at the expiration of his service."

Occupying Space.

No one has ever been able to figure out just how much good the bureau of education accomplishes, but it has been able to secure a great deal of space in the Congressional Record. Chairman Fitzgerald of the appropriations committee complained that the bureau of education costs a great deal without accomplishing any results to justify the expenditure. The bureau has been in existence a long time, but its growth has been retarded somewhat by the desire of states to control their own educational facilities. Just now, however, the bureau has at its head an energetic man who persists in making himself felt and demanding more money for carrying on the work. That is why the bureau of education has been receiving so much advertising.

Hundred Thousand Feet In the Air.

Some of the flying machine men have gone up pretty high, but they do not reach the altitude of twenty miles, or 100,000 feet, like the little balloons which the weather bureau sends up to find out about what is going on in the high atmosphere. The matter came up in the house, and Chairman Lever of the agriculture committee explained that the bureau sent up these balloons with sensitive instruments which told of the various conditions of the upper air. They had little notes attached asking people who found them to return them to the weather bureau.

It appears that these balloons have been sent out mostly from the \$500,000 plant at Mount Weather and drifted out into the Atlantic ocean. Mount Weather is to be abandoned and this work is to be carried on at some point on the Missouri river, so that the little balloons will be picked up as they drift eastward.

Former Premier of France Testifies at Murder Trial.

Paris, July 22.—"I accuse myself! I committed a fault! I should have acted, but, absorbed by public affairs, I failed to realize the ravages Calmette's calumnies had made on the soul of my wife."

So cried Joseph Caillaux, former premier and still one of the most powerful men in France, at the trial of his wife, accused of killing Gaston Calmette, editor of Figaro. M. Caillaux held the court for two intense hours, testifying in his wife's defense.

The trial has entered upon its political phase and those who sat in the courtroom had occasion to bring to mind that Caillaux is the strong man of the radical groups now ruling France.

He announced he would tell the jury the history of his private life from his first marriage down to the sad events which caused his presence on the stand. He explained the incident of the two letters, which he supposed had been destroyed before his divorce from his first wife. He knew of their existence only when a friend warned him that they were about to be published.

Miners' Convention.

Denver, July 22.—Consolidation of the United Mine Workers of America and the Western Federation of Miners is recommended in the report of President Charles H. Moyer, presented at the biennial convention of the latter organization, in session here.

The report pledges the support of the Western Federation to the United Mine Workers in the Colorado strike; charges dissension among the members of the federation at Butte, Mont.; urges the creation of a permanent fund for strike benefits; opposes a proposed amendment that would make ineligible for re-election any member who had previously held office for two consecutive years and calls on the members to organize labor to unite in a campaign of education to obtain their demand in states and in the nation.

Parkersburg, W. Va., July 22.—Allegations that he had starved his wife to death after buying a coffin and digging a grave led to the arrest here of Samuel Cunningham on a charge of murder in the first degree. Cunningham is a farmer.

According to J. E. Mayhem, state humane agent, who swore to the warrant, Cunningham not only failed to provide his wife with food for twelve days prior to her death last Friday, but bought a coffin three weeks ago and started digging a grave a week ago.

T. D. Jones Writes Letter to Senator  
Hitchcock.

Washington, July 22.—Thomas D. Jones of Chicago, whose nomination by President Wilson as a member of the federal reserve board was reported unfavorably to the senate by a majority of the banking and currency committee, submitted a supplemental statement of his case in a letter to Senator Hitchcock, acting chairman of the committee.

Mr. Jones' statement, made public by order of the senate at the instance of Democratic members of the banking committee who favor his confirmation, was written after he had read the unfavorable report of the committee majority.

He submits that the procedure of the committee was "grossly unfair." With reference to his connection with the International Harvester company Mr. Jones said the company had been doing business for six years when he became a director and the government then had taken no action against it.

CONSULAR OFFICIALS BUSY

Secretary Bryan Sends Telegram Urging  
Rebel Leaders to Get Together  
and Aid in Forming New Government—Also Intimates United States  
Will Disapprove of Counter Revolutions.

Washington, July 22.—The United States, through its consular representatives, appealed to General Carranza and General Villa in the interest of patriotism and permanent peace in Mexico, to bury their personal differences and work in harmony for the establishment of a new government.

Secretary Bryan telegraphed George C. Carothers and John R. Silliman, representatives of the state department with General Villa and General Carranza, respectively, urging that they present in a friendly yet effective manner the importance of cohesion in the Constitutionalists forces.

Disquieting reports have come to the effect that Villa was preparing to concentrate his troops in Chihuahua and hold himself aloof from Carranza's authority.

Mr. Bryan's telegram did not assume that the reports of the break were true, but suggested the importance at this time of a unified movement and indicated that the American government would disapprove of counter revolutions.

Mr. Bryan's appeal, made after a consultation with President Wilson, was interpreted in many quarters as the first step on the part of the American government to prevent counter revolutions at the close of the present revolt.

Washington, July 22.—Representations that the two French priests, members of the Christian Brothers, recently killed at Zacatecas, were executed at the direct orders of General Villa were laid before President Wilson by Charge d'Affairs Claus of the French embassy. He told the president that his government is deeply disturbed over the killing of the Frenchmen and the imprisonment of eleven others by the Constitutionalists and that active steps for reparation are earnestly sought.

Representative McDermott Avoids Vote

Washington, July 22.—Representative James T. McDermott telegraphed Governor Dunne resigning as a member of congress. In a prepared statement read in the house McDermott denied charges of misconduct in the "lobby" case.

McDermott was charged by Colonel Mulhall of the National Association of Manufacturers with being a paid lobbyist for the association. His resignation from the house came just two days before probable action on the report of the investigation committee.

By resigning McDermott disposes of any action by the house on the lobby charges. McDermott came from the stock yards district of Chicago. He is a candidate for reelection.

Norwegian Papers Criticize Secretary  
of Legation.

Christiania, July 22.—The principal Norwegian papers are demanding the recall of the secretary of the American legation, Franklin M. Gunther, because of his alleged assault on the harbor master of Christiania, who is the highest police official in the kingdom.

The harbor master has reported the circumstances to the minister of foreign affairs and demands an apology from Mr. Gunther and the punishment of Mr. McCullough, the owner of the American steam yacht Pauline.

The incident arose through defiance of the harbor master's order to change the anchorage of the Pauline, which occupied the space reserved for the German emperor's yacht Meteor.

President Writes Letter to Attorney General McReynolds Directing Suit Under Sherman Law to Break Up Railway System and Orders Criminal Aspect of Case Be Laid Before Federal Grand Jury.

Washington, July 22.—The long continued effort to untangle the New Haven railroad situation without litigation came to an end when President Wilson, in a letter to Attorney General McReynolds, directed the institution of a Sherman law suit to dissolve the system and ordered that the "criminal aspects of the case" be laid before a federal grand jury.

The president's approval of the course mapped out by the department of justice means that the civil suit will be filed against the New Haven in the United States court at New York at once. The attorney general also immediately will direct United States District Attorney Marshall at New York to summon a grand jury before which evidence will be presented as soon as possible.

It was plainly indicated that the attorney general expects to ask for a bill against Charles S. Mellen, former president of the New Haven. The most significant fact in connection with the proceedings was said to be a statement which Mr. McReynolds gave out several months ago when the interstate commerce commission began its New Haven inquiry.

The attorney general warned the commission to consider whether immunity might be given certain men if made to testify as to their actions as directors of the road. The names he mentioned were: Charles S. Mellen, William Rockefeller, George Maculloch Miller, Charles F. Brooker, Edwin Milner, Lewis Cass Ledyard, George F. Baker and Edward D. Robbins.

President Deplores Action.

In addition to directing suit the president declared that the decision of the New Haven directors not to keep their agreement to dissolve peacefully had caused him "the deepest surprise and regret," and that their failure "upon so slight a pretext" was "inexplicable and entirely without justification."

One of the most interesting phases of the correspondence was contained in the attorney general's letter to President Wilson in which there is a decided rebuke for the interstate commerce commission for its action in subpoenaing Mellen and "perhaps others flagrantly culpable" with the possible result of embarrassing the department by a claim of immunity in return for their testimony.

In this connection the attorney general makes the statement that criminal prosecutions always have been in mind and that there never has been "the slightest hope that parties guilty of criminal violations of the law would escape."

It has been an open secret for weeks that the department has what it believes is evidence that Mr. Mellen gave testimony to the commission contradicting evidence in the possession of the attorney general and it is possible that if any claim of immunity is raised it will be fought on this issue. The case was discussed at the cabinet meeting and the department's course approved.

Ulster May Be Excluded.

The fact that the prime minister considers it necessary to resort to such a conference is hailed by his opponents as a virtual surrender on his part. His opponents prophesy and his real supporters fear that he will consent to Sir Edward Carson's loudly proclaimed ultimatum of a clear cut exclusion of the whole of Ulster from the projected new Irish government.

Parliamentary experts assert that if such an agreement is laid before the house of commons it will be defeated, because Mr. Asquith's majority is dependent upon the Irish and labor members and all the Irish and labor members, with at least thirty leading Liberals, will vote against it.

John Redmond and Sir Edward Carson represent their supporters, the Orange Ulstermen and the Catholic Nationalists, respectively, and both Irish factions are in an attitude not only of no surrender, but also of no compromise.

Messages from all parts of Ireland say that the Nationalists and the Orangemen are absolutely at the fighting point and will not listen to any talk of compromise.

Husband Sees Her Dashed to Death  
When Parachute Fails.

Brussels, July 22.—Mme. Cayat de Castella was dashed to death from a height of 1,000 feet. A new parachute she was testing from the biplane of Aviator Champel failed to work and thousands of spectators, among them her husband, saw her drop.

Mme. Cayat de Castella previously had made a number of successful drops by means of an automatic detachable parachute.

RETICENT ON MEDIATION

Federal Arbitrators Refuse to Discuss  
Progress.

Chicago, July 22.—Members of the federal board of mediation and conciliation, here to bring peace to the ninety-eight Western railroads whose employees have demanded a wage increase, were reticent as to the progress of the mediation.

Members of the railroads and the engineers' committees also refused to state whether the first day's meeting had resulted in any progress toward a settlement of the disagreements.

Two sessions were held.

## PLAN PEACE CELEBRATION

Delegates From United States and  
Canada Meet.

MacInack Island, July 22.—Delegates from American states and Canadian provinces from the Atlantic to the Pacific which have dwelt in peace for ninety-nine years met here to lay plans for a fitting celebration.

Alton B. Parker of New York, chairman of the conference, explained that the celebration is meant to call the attention of the world to the fact that heavy armaments are not necessary to the preservation of peace. No greater argument can be used, he said, than the fact that neither Great Britain nor the United States has found it necessary to fortify the boundary line or maintain fleets on the Great Lakes.

CAPITAL MAY ORDER  
TROOPS INTO HAYTIArmed Intervention Is Considered  
a Possibility.

Washington, July 22.—Armed intervention by the United States in Hayti was discussed by administration officials upon the receipt of dispatches from diplomatic agents saying great losses would be suffered in the island republic by the ravages of revolution.

No active steps have been taken, but the situation has advanced to a point where, under pressure from European powers, a movement into Hayti and perhaps the Dominican republic of marines already mobilized at Guantanamo was among the possibilities.

Secretary Bryan would say no more than that troops had not been asked for by the state department. No arrangements have been made for augmenting the force at Guantanamo by any of the marines and troops at Vera Cruz.

Oklahoma Would Oust Three Oil  
Firms.

Atoka, Okla., July 22.—Proceedings asking that the Texas company, an oil pipe line and purchasing corporation, and the Producers' Oil company and Central Petroleum company, producers of crude petroleum, be ousted from Oklahoma have been instituted in the district court here. The petition charges the Texas company, as the parent corporation, and the producing companies, as subsidiaries, violated the state anti-trust laws in their alleged combination.

The state's petition asks that fines aggregating \$4,000,000 be imposed.

GALESBURG REVIVES  
ANCIENT BLUE LAW.

Galesburg, Ill., July 22.—By resurrecting a city ordinance passed nearly fifty years ago forbidding trade, amusements and games on Sunday, the Galesburg city council has launched a campaign of literal law enforcement which will forbid even the sale of newspapers, soft drinks, cigars and candy on the Sabbath. Only drug stores, restaurants, hotels and livery stables will be permitted to do business.

LAND LAWS PROVE  
UNSATISFACTORYCongress Finds Difficulty In  
Passing Adequate Bill.

MANY MEASURES PENDING.

Each Locality Has Different Needs, and No One Measure Can Cover the Entire Country—One Bill Introduced Which Would Clear Up All Questions of the Age if It Should Pass.

By ARTHUR W. DUNN.

Washington, July 22.—[Special.]—Almost from the beginning of the government congress has been legislating upon land laws. Some liberal land legislation has been passed, and the statute books are loaded down with laws relating to the public lands of the United States.

And yet they do not seem satisfactory, for there are hundreds of bills pending in congress now to change the land statutes. Of course the changing conditions of the country have something to do with it. The development of coal and minerals and the necessity for irrigating lands has caused a great deal of legislation.

Nearly every senator from a public land state has bills pending which he thinks are necessary, but which in reality apply to local conditions in his state. It will probably be impossible to enact a land law which will be general and satisfactory to every part of the country.

A Public Benefactor.

From time to time a man comes to Washington with the idea that he can change the economic conditions of the country by a simple act of legislation. One of these men had a bill introduced "by request," which means that the man presenting it did not stand for it. It contained thirty-seven sections and, of course, many appropriations, but its title is enough to explain what it is intended to do.

The bill provides for raising additional revenue, for re-establishing, in the distribution of the burdens and benefits of government upon the people, a condition of equity in its complex relation to the citizens and their prosperity; for creating a fund for the payment of pensions and for setting our army of idle laborers at work on extensive public improvements; for removing the strongest incentive to crime among the poor and to vice among the rich.

If all that could be brought about by a simple act of legislation there is really no reason why congress should not pass it and then adjourn, but such days of legislative enactments have never been reached in this country.

Convict Labor.

One of the many problems that confront legislators not only in the national congress, but in the states, is the employment of convicts. That men in prison must be employed to keep them from going insane is a well known fact, but often the products of their labor compete with the products of the workmen, and labor unions have made a great protest against that.

Discussing the convict labor bill one day, Congressman Sherley of Kentucky thus outlined what he thought should be done with the convict: "He should be put at remunerative work, charging him with his upkeep, crediting him with his labor, and the difference between what he earns and what he costs should go either to his dependent family or to the man himself at the expiration of his service."

Occupying Space.

No one has ever been able to figure out just how much good the bureau of education accomplishes, but it has been able to secure a great deal of space in the Congressional Record.

Chairman Fitzgerald of the appropriations committee complained that the bureau of education costs a great deal without accomplishing any results to justify the expenditure. The bureau has been in existence a long time, but its growth has been retarded somewhat by the desire of states to control their own educational facilities. Just now, however, the bureau has at its head an energetic man who persists in making himself felt and demanding more money for carrying on the work. That is why the bureau of education has been receiving so much advertising.

Hundred Thousand Feet In the Air.

Some of the flying machine men have gone up pretty high, but they do not reach the altitude of twenty miles, or 100,000 feet, like the little balloons which the weather bureau sends up to find out about what is going on in the high atmosphere. The matter came up in the house, and Chairman Lever of the agriculture committee explained that the bureau sent up these balloons with sensitive instruments which told of the various conditions of the upper air. They had little notes attached asking people who found them to return them to the weather bureau.

It appears that these balloons have been sent out mostly from the \$500,000 plant at Mount Weather and drifted out into the Atlantic ocean. Mount Weather is to be abandoned and this work is to be carried on at some point on the Missouri river, so that the little balloons will be picked up as they drift eastward.

Former Premier of France Testifies at Murder Trial.

Paris, July 22.—"I accuse myself! I committed a fault! I should have acted, but, absorbed by public affairs, I failed to realize the ravages Calmette's calumnies had made on the soul of my wife."

So cried Joseph Caillaux, former premier and still one of the most powerful men in France, at the trial of his wife, accused of killing Gaston Calmette, editor of Figaro. M. Caillaux held the court for two intense hours, testifying in his wife's defense. The trial has entered upon its political phase and those who sat in the courtroom had occasion to bring to mind that Caillaux is the strong man of the radical groups now ruling France.

He announced he would tell the jury the history of his private life from his first marriage down to the sad events which caused his presence on the stand. He explained the incident of the two letters, which he supposed had been destroyed before his divorce from his first wife. He knew of their existence only when a friend warned him that they were about to be published.

Miners' Convention.

Denver, July 22.—Consolidation of the United Mine Workers of America and the Western Federation of Miners is recommended in the report of President Charles H. Moyer, presented at the biennial convention of the latter organization, in session here.

The report pledges the support of the Western Federation to the United Mine Workers in the Colorado strike; charges dissension among the members of the federation at Butte, Mont.; urges the creation of a permanent fund for strike benefits; opposes a proposed amendment that would make ineligible for re-election any member who had previously held office for two consecutive years and calls on the members to organize labor to unite in a campaign of education to obtain their demand in states and in the nation.

Parkersburg, W. Va., July 22.—Allegations that he had starved his wife to death after buying a coffin and digging a grave led to the arrest here of Samuel Cunningham on a charge of murder in the first degree. Cunningham is a farmer.

According to J. E. Mayhew, state humane agent, who swore to the warrant, Cunningham not only failed to provide his wife with food for twelve days prior to her death last Friday, but bought a coffin three weeks ago and started digging a grave a week ago.

SAYS REPORT IS UNFAIR

T. D. Jones Writes Letter to Senator  
Hitchcock.

Washington, July 22.—Thomas D. Jones of Chicago, whose nomination by President Wilson as a member of the federal reserve board was reported unfavorably to the senate by a majority of the banking and currency committee, submitted a supplemental statement of his case in a letter to Senator Hitchcock, acting chairman of the committee.

Mr. Jones' statement, made public by order of the senate at the instance of Democratic members of the banking committee who favor his confirmation, was written after he had read the unfavorable report of the committee majority.

He submits that the procedure of the committee was "grossly unfair." With reference to his connection with the International Harvester company Mr. Jones said the company had been doing business for six years when he became a director and the government then had taken no action against it.

## MUSHROOMS SUPPLANT BEER

at St. Louis.

St. Louis, July 22.—The plant of the old Union brewery is to be made into a mushroom cellar. The Mushroom Cellar company has leased the brewery and will start work at once fitting it up as an experiment.

Some "dry" workers here say that this is due to the fact that the brewers believe Missouri will go "dry" inside of a few years.

Appeals to Villa and Carranza  
to Bury Differences.

CONSULAR OFFICIALS BUSY

Secretary Bryan Sends Telegram Urging Rebel Leaders to Get Together and Aid in Forming New Government—Also Intimates United States Will Disapprove of Counter Revolutions.

Washington, July 22.—The United States, through its consular representatives, appealed to General Carranza and General Villa in the interest of patriotism and permanent peace in Mexico, to bury their personal differences and work in harmony for the establishment of a new government.

Secretary Bryan telegraphed George C. Carothers and John R. Silliman, representatives of the state department with General Villa and General Carranza, respectively, urging that they present in a friendly yet effective manner the importance of cohesion in the Constitutional forces.

Disquieting reports have come to the effect that Villa was preparing to concentrate his troops in Chihuahua and hold himself aloof from Carranza's authority.

Mr. Bryan's telegram did not assume that the reports of the break were true, but suggested the importance at this time of a unified movement and indicated that the American government would disapprove of counter revolutions.

Mr. Bryan's appeal, made after a consultation with President Wilson, was interpreted in many quarters as the first step on the part of the American government to prevent counter revolutions at the close of the present revolt.

Lays Death of Two Priests Before  
President Wilson.

Washington, July 22.—Representations that the two French priests, members of the Christian Brothers, recently killed at Zacatecas, were executed at the direct orders of General Villa were laid before President Wilson by Charge d'Affairs Claus of the French embassy. He told the president that his government is deeply disturbed over the killing of the Frenchmen and the imprisonment of eleven others by the Constitutionalists and that active steps for reparation are earnestly sought.

## RESIGNS SEAT IN CONGRESS

Representative McDermott Avoids Vote  
on Expulsion.

Washington, July 22.—Representative James T. McDermott telegraphed Governor Dunne resigning as a member of congress. In a prepared statement read in the house McDermott denied charges of misconduct in the "lobby" case.

McDermott was charged by Colonel Mulhall of the National Association of Manufacturers with being a paid lobbyist for the association. His resignation from the house came just two days before probable action on the report of the investigation committee.

By resigning McDermott disposes of any action by the house on the lobby charges. McDermott came from the stock yards district of Chicago. He is a candidate for re-election.

## ASK AMERICAN'S RECALL

Norwegian Papers Criticize Secretary  
of Legation.

Christiania, July 22.—The principal Norwegian papers are demanding the recall of the secretary of the American legation, Franklin M. Gunther, because of his alleged assault on the harbor master of Christiania, who is the highest police official in the kingdom.

The harbor master has reported the circumstances to the minister of foreign affairs and demands an apology from Mr. Gunther and the punishment of Mr. McCullough, the owner of the American steam yacht Pauline.

The incident arose through defiance of the harbor master's order to change the anchorage of the Pauline, which occupied the space reserved for the German emperor's yacht Meteor.

## ITALIANS ATTACK OFFICERS

Resent Killing of Their Countryman  
in Running Fight.

Washington, Pa., July 22.—The killing of an Italian miner at Meadowlands, near here, in a gun fight with constables, led to an attack on the officers by armed countrymen of the dead man and serious consequences threatened until Sheriff R. G. Lutton arrived with thirty deputies. Charles Secora, twenty-eight, of California, went to the home of Mrs. Marie Cardova at Meadowlands and is said to have attacked the woman.

Constable Bert Hyatt and several deputies went to arrest Secora, who, when he saw the officers, opened fire. The officers began shooting at the house. Secora, still firing, fled. He dropped dead after running a short distance.

WEDNESDAY, JULY 22, 1914

This hot weather has the effect of cooling the ardor of the politicians.

Minneapolis policemen are now taking their inuring at being roasted, it seems every policeman has his day.

Two Minnesota lakes, Rainy and Lake of the Woods, are to be charted by the coast and geodetic survey for the benefit of navigation.

Candidate Preus does not seem to be at a disadvantage in the recount of votes for the state auditorship, the result at Duluth where the errors were expected to be discovered gave him a gain of 41 votes and if this keeps up throughout the state his lead will be greatly increased instead of diminished as his opposition would have it.

A bill offered in the senate by Senator Nelson restoring to entry a large tract of land at the headwater of the Mississippi, located in Crow Wing, Aitkin, St. Louis, Cass, Hubbard, Itasca, Beltrami and Koochiching counties, has passed both houses and will soon become a law. The land comprises about 6,000 acres and was withdrawn for florage purposes at the time of the construction of the reservoirs and dams on the upper Mississippi.

Huerta may be an exile from his own country, but he escaped a worse fate when he considers a trial for the murder of some of his political enemies as one of the probabilities. Mexico is one of the places where assassination has been winked at in the past and the arch villain seems to have gotten away just in time. Few people would care to have the crimes laid to their doors for all the millions Huerta is said to have accumulated to his credit in foreign banking houses.

Some of the newspapers of the state whose editors are for one party or the other when the nominations suit them are saying some very harsh things, unwise to say the least, if they expect their publications to be credited with that degree of fairness instead of being an organ for their own personal gratification, in future campaigns. Even Gov. Eberhart is not a candidate but there are those who seek to belittle him at more expense to themselves than to the man they seek to besmirch—and it does

not help the candidate who defeated him. Politics is a game that should be played fair if one expects to retain the respect of his friends, politically and otherwise.

Ralph Quinn, Bob Clark and a travelingman named Shaughnessy had an exciting time fishing up the M. & I. Between Merrifield and Nisswa their conveyance broke down and all hands pushed it to the next town. Coming home it broke down twice, the gasoline rig on which they traveled having a most refractory spirit. Today Shaughnessy is sore in mind and body and won't be able to travel on the road for a week. "The fishing was all right," said Shaughnessy, "but the getting there and coming back was what killed me."

**Whistles Scare Them.**

Indians are very fond of dogs, and around every wigwam, teepee, hut or wherever they may reside there are always from six to twenty wolfish dogs. An Indian's dog loves an Indian and hates a white man with equal intensity. When a white man drives through an Indian village and sees a dog by the wayside his natural impulse is to whistle in a friendly way. But the instant he whistles the dog turns tail and is out of sight quicker than if he had been kicked. An Indian never whistles to his dog when he wants the animal to come to him; he places his tongue against his teeth and hisses.—St. Paul Pioneer Press.

WEDNESDAY, JULY 22, 1914

This hot weather has the effect  
of cooling the ardor of the politicians.

Minneapolis policemen are now  
taking their inning at being roasted,  
it seems every policeman has his day.

Two Minnesota lakes, Rainy and  
Lake of the Woods, are to be charted  
by the coast and geodetic survey for  
the benefit of navigation.

Candidate Preus does not seem to  
be at a disadvantage in the recount  
of votes for the state auditorship,  
the result at Duluth where the er-  
rors were expected to be discovered  
gave him a gain of 41 votes and if  
this keeps up throughout the state  
his lead will be greatly increased  
instead of diminished as his opposi-  
tion would have it.

A bill offered in the senate by  
Senator Nelson restoring to entry a  
large tract of land at the headwater  
of the Mississippi, located in Crow  
Wing, Aitkin, St. Louis, Cass, Hub-  
bard, Itasca, Beltrami and Koochi-  
chiching counties, has passed both  
houses and will soon become a law.  
The land comprises about 6,000 acres  
and was withdrawn for flowage pur-  
poses at the time of the construction  
of the reservoirs and dams on the up-  
per Mississippi.

Huerta may be an exile from his  
own country, but he escaped a worse  
fate when he considers a trial for  
the murder of some of his political  
enemies as one of the probabilities.  
Mexico is one of the places where as-  
sassination has been winked at in the  
past and the arch villain seems to  
have gotten away just in time. Few  
people would care to have the crimes  
laid to their doors for all the millions  
Huerta is said to have accumulated  
to his credit in foreign banking  
houses.

Some of the newspapers of the  
state whose editors are for one party  
or the other when the nominations  
suit them are saying some very harsh  
things, unwise to say the least, if  
they expect their publications to be  
credited with that degree of fairness  
instead of being an organ for their  
own personal gratification, in future  
campaigns. Even Gov. Eberhart is  
not a candidate but there are those  
who seek to belittle him at more ex-  
pense to themselves than to the man  
they seek to besmirch—and it does

not help the candidate who defeated  
him. Politics is a game that should  
be played fair if one expects to re-  
tain the respect of his friends, polit-  
ically and otherwise.

## FORT RIPLEY STATE BANK

Organized by Minneapolis, Jordan and Kilkenny Men, Fort Ripley Men Also Interested

IS CAPITALIZED AT \$10,000

Capital Stock May be Increased From Time to Time, But Not to Exceed \$25,000

The Fort Ripley State Bank has been organized by Minneapolis, Jordan, Kilkenny and Fort Ripley business men. The incorporators are J. Lampert of Minneapolis, John Michael of Jordan and H. D. Michael and Paul Zeug of Kilkenny. The first board of directors includes J. Lampert, H. D. Michael and Paul Zeug. The amount of the capital stock is \$10,000, being 100 shares at \$100 each and this may be increased from time to time by a majority vote of stockholders, but not to exceed the sum of \$25,000.

The highest amount of indebtedness or liability to which the corporation shall at any time be subject shall be \$200,000.

A brick bank building is to be erected at Fort Ripley. Paul Zeug will probably be cashier of the institution. Fort Ripley is in the center of a live, growing farming country, with dairy products and potatoes the staples and should prove an admirable center for a progressive bank.

### EVER HAVE IT?

If You Have, the Statement of This Brainerd Citizen Will Interest You

Ever have a "low-down" pain in the back? In the "small" right over the hips? That's the home of backache. If it's caused by weak kidneys, Use Doan's Kidney Pills. Brainerd people testify to their worth. Read a case of it: Charles D. Erickson, 1103 E. Oak St., Brainerd, Minn., says: "I was annoyed at night by kidney weakness. My back ached awfully, and it was hard for me to get around. For several weeks I couldn't do any work. I doctored, but got no benefit until I procured Doan's Kidney Pills from H. P. Dunn's drug store. They soon fixed me up in good shape." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Erickson had. ### AS THE MATTER STANDS

Brainerd Team Carries No Correspondent With Them and So Gets No Outside Mention

Brainerd traveled to International Falls Friday night and played two games, one on Saturday and one on Sunday, winning both, not a mention of the same was made in any outside paper by International Falls. The first game was an utter rout, 16 to 0, so much so that no reference to the score was even made in the home paper, the International Falls Daily Journal.

Brainerd traveled without a press correspondent and so never got at outside mention anywhere. Which conveys some moral.

Under the heading, "Another splendid game," the International Falls Daily Journal prints this short story of the Sunday game followed by the box score:

"Our baseball fans were treated to another high class game Sunday when the locals met Brainerd at Athletic park. The game of a week before with Biwabik made a hit with the bugs and that of Sunday was another in its class and gave general satisfaction, despite the fact that we lost by the narrow margin of 4 to 5."

"Graves, Connie Mack's latest find who is home recuperating from an illness, was in the box for the visitors while Babe Ursella officiated in like capacity for the locals. Both pitchers were in good form and the battle was largely between them, but when they needed support it was there, thus making the game mighty interesting right up to the finish."

Thus 22 lines and the box score is the only mention Brainerd got of its two high class games when they utterly defeated International Falls. Not a mention of the score was even sent outside by International Falls. Some publicity for Brainerd from the International Falls end.

### WOODROW WINS

The Dower Lumber Co. finished their large lumber shed Saturday. Mr. Lind expects to move into the new office in a few days.

Fred Hannah, Deerwood contractor has completed a fine four-room cottage for Anton Berg.

The Dullum building is nearing completion, the plasterers will be there this week.

Two carpenters started siding and finishing the front of the Woodrow pool hall the first of the week.

The citizens of Woodrow presented Mr. and Mrs. V. L. Francis with a fine new baby carriage for their infant daughter, being the first born in Woodrow.

The track gang finished the spur into Woodrow Monday and several cars of lumber and coal came in today.

## PETITION FOR TRAIN SERVICE

A Monday Passenger Train Wanted From Minnesota & International Railway

MANY SIGN THE PETITION

Being Circulated by J. M. Quinn, Who Platted Cullen Park on the M. & I.

J. M. Quinn, who platted Cullen Lake Park between Lower and Middle Cullen lakes near Nisswa, is circulating a petition for additional passenger train service from the Minnesota & International railway on Monday mornings. He has already secured some fifty or more signers. The petition addressed to W. H. Gemmell, general manager of the M. & I., reads:

"We, the undersigned property owners at the various lakes and summer resorts near Brainerd reached by your line, respectfully petition you that during the remainder of the season when such lakes are suitable for summer resort purposes, your railway company will furnish a train into Brainerd which shall arrive in Brainerd shortly before business hours on Monday mornings."

Such a train would permit many of the business men and others to take a Sunday outing who now are not able to go up the M. & I. because train service does not conveniently bring them back to Brainerd.

### Y. W. C. A. MEETING

Held at the First Baptist Church on Monday Evening, Miss Lillian Lawrence Presiding

The monthly meeting of the Young Women's Christian Association was held at the First Baptist church on Monday evening. The meeting was called to order by the president, Miss Lillian Lawrence.

After the song by the choir there was prayer by Miss Laura Vanderwerker. The minutes of the two preceding meetings were read and approved.

Mrs. Anna W. Moody, of Anaconda, Mont., who was instrumental in founding the Y. W. C. A. branch in Brainerd, offered words of encouragement in a communication read by the president. The girls voted a letter of thanks be written to Mrs. Moody for her kind interest in their efforts.

A piano duet was played by Miss Bertha Strickler and Miss Sigrid Lind. The Bible study in charge of Miss Hannah Falconer was followed by prayer, and a song by the choir. Miss Alma Hanson volunteered to lead the next Bible study. An invitation was extended new members to join. Four joined on the night of the meeting.

Business matters were discussed. There was a song by the choir, followed by a vocal duet by Miss Luella Vanderwerker and Miss Hope Thabes. After the song by the choir there was the closing prayer.

The meeting adjourned to Monday evening, July 27 at the Presbyterian church. All young ladies who are interested in the Young Women's Christian Association of Brainerd are cordially invited to attend the meetings. The members are all urged to be present.

### ESDON ETCHINGS

R. J. Maghan's telephone was struck by lightning during the last electrical storm. Considerable damage was done inside the house. Four poles were more or less shattered. They were looking for the insurance inspector to come around most any time to appraise the damage. The insulating wire was torn into small bits and the phone had to be repaired. Albert Maghan, who is sick, was sleeping with his head towards the window and felt the shock quite badly.

The same night Ed. Elmore's phone got a lighter stroke. All the phones on this wire kept up a continual ringing, owing to lack of ground wires.

R. J. Maghan received word that his son Albert, was to be taken to the sanitarium at once. He left Wednesday of this week.

Many of Mrs. R. J. Maghan's people met at the Maghan home Sunday to see Albert before he left for the hospital.

Mrs. Ella Borden of Mille Lacs and married daughter of Stevens, were visitors at R. J. Maghan's last week.

Miss Myrtle Maghan of Duluth, returned home last week. She had been visiting her uncle, R. J. Maghan and family.

Mrs. Phil Isles received word of the death of her sister who has been in the hospital at Minneapolis. She was suffering with tuberculosis. She leaves a husband and two small children besides her father, brother and sisters to mourn her loss.

Mildred set their telephone poles out towards Brainerd Monday and Tuesday Grave Lake and Esdon people are putting on the wire. We expect to soon be connected with central.

There was some rye cut in this neighborhood Monday and more will be cut during the week.

Harry Wickham has been quite sick for a few days.

### COMPLAINS OF CONDITIONS

Little Falls People Roast the Conditions on the Little Falls and Dakota Branch

The Little Falls Transcript publishes a statement that should at least make the railroad officials sit up and take notice, if it does not the passengers who are obliged to travel over the L. F. & D. The Transcript says:

Local parties who are regular passengers on the Little Falls & Dakota branch each week are registering complaints over the condition of the coaches in which they are obliged to ride. The train has been dubbed the "Bedbug Special" by local persons owing to the presence of many of the bugs in the cars on Saturday last. Little Falls ladies who went to points on the branch Saturday would not ride in the day coach on the return trip, but preferred the smoker with its smoke to the other car with its extra inhabitants.

A prominent local man who is obliged to make the trip over the branch quite often has taken the matter up with the general passenger agent. This action was taken because of the fact that trainmen have already reported conditions on the branch line and nothing ever was done in the matter.

Another cause for complaint and which has been mentioned in these columns before is the crowded conditions of the coaches on lake going days during the summer months. Passengers state that several were obliged to stand again last Saturday and that there is hardly a Saturday or Monday on which plenty of room is found on the branch train between Sauk Centre and Little Falls.

No doubt the complaint registered with the general passenger agent will bring the much needed results.

In addition to the above the Transcript describes the conditions that exist since the taking off of trains 5 and 6, not so much the desire to travel on them as the fact that their removal makes the other trains late. No. 9, is especially interfered with in regard to time since the change, and the Transcript says no one in that city seems to be able to remember when it was on time. All that is said as to the lateness of trains and the inconvenience to the public on this account is as true at Brainerd as it is at Little Falls. The Transcript concludes its article as follows:

Little Falls patrons of the railroad would welcome some action which would do away with this delay, as No. 9 is the most convenient train to get to the lakes at Lincoln and a subdivision of this train, known as No. 32, is the best on which to reach Brainerd, M. & I. points and Duluth. It has been rumored that Nos. 5 and 6 would be replaced on the schedule, but there seems little chance of this being done.

### LONG LAKE SOCIAL CLUB

Three New Members Added Making Total Membership of 24

The Long Lake Social Club held their regular meeting July 10th. Three new members were added making a total membership of twenty-four. After a short business session the following program was rendered:

Prayer—Mrs. F. Zeidler  
Recitation—Rudolph Carlson  
Song—Florence Sutton  
Recitation—Ethel Peterson  
Violin selection—Carl Freytag  
Song—Florence Zeidler  
5th Ave. News—Mock Court Scene

The following characters appeared in the court scene: Judge, Frank Zeidler; claimant, Chester Sutton; defendant, Al Lamont; claimant's lawyer, Andrew Ormseth; defendant's lawyer, Mrs. Frank Zeidler; witnesses for the defense, Florence Sutton, Lillie Anderson, Frank Rasmussen; witnesses against the defense, Axel Peterson, Myrtle Lamont, George Henningson.

Mr. Lamont was charged with ill-treating his horses and the jury brought in the verdict of guilty.

The next meeting of the club will be held Friday evening, July 24th. A fair will be held and at the different booths there will be ice cream, cake, lemonade, home made candy, paper caps and small bouquets for sale. There will also be a lovers' well. The charges will not exceed 5 cents for any one thing and will be less for some. Five cents admission will be charged to hear the program.

A men's quartet from town will sing. The proceeds will be used for a good purpose, for screens for the school house and for the church fund as the club decides at its next business session.

## PHILADELPHIA IN LUCK, TAKES BOTH

Philadelphia, July 21—Philadelphia ran its string of consecutive victories up to seven by winning both games from Cleveland today, the first 2 to 1 in 11 innings, and the second by 7 to 6. In the opener Mitchell pitched wonderful ball for eight innings, during which he piled up 12 strike-outs, but in the ninth the home team tied the score on Collins' single and a steal of second and an out and a wild pitch. In the eleventh after being held down to three hits, Philadelphia doubled its total of safeties and won. Scores:

First Game  
Cleveland—0 0 0 0 1 0 0 0 0 0—1  
Phil.—0 0 0 0 0 0 0 0 1 0—2  
Batteries—Mitchell and Carisch; Bush and Schang. Umpires, Dineer and Evans.  
Second game—  
Clev.—3 0 1 0 0 0 2 0 0—6  
Phil.—0 0 2 0 5 0 0 0 x—7  
Batteries—Steen, Hagerman and Bassler; Bressler and Schang. Umpires, Evans and Dineer.

### WOODROW WINS AGAIN

Woodrow 5 Riverton 2, One of Fastest Games Played Sunday at Woodrow

The game played Sunday between Woodrow and Riverton was one of the cleanest and fastest played at Woodrow this season, the score being Woodrow 5 and Riverton 2.

The Riverton boys are a good bunch of sports and put up a game fight but the hard hitting Giants walloped Shurman for 5 hits in the third inning which netted them three runs and gave them a lead the Riverton boys could not overcome.

Batteries were Frank Cannon and Novotny for Woodrow, Shurman and Hollister for Riverton. Umpire Anderson.

### SPEAKS AT M. E. CHURCH

Miss Dora Gladden to Tell of Thrilling Experiences in Mexico

Miss Dora Gladden of Guanajuato, Mexico, who speaks at the First Methodist church tonight has an interesting story of thrilling experiences in connection with the recent troubles in that city.

Miss Gladden was in Mexico City employed as a teacher in the school of the Womans Foreign Missionary Society during the early days of the trouble and passed through the nine days of bombardment in February, 1913. It was at the close of this bombardment during which there were many narrow escapes of teachers and pupils in the school, that Madero was assassinated and the Constitutionalists were put on the defensive against the usurper Huerta.

Shortly after this Miss Gladden was sent to her present field in the mining town of Guanajuato which is about a day's journey from Mexico City, and the farthest removed of all the mission stations. It was therefore necessary that she should be given ample notice of any unusual disturbance looking to the necessity of the removal of foreigners from the country. So it happened that twice she left her post with a view of coming home. The first time quiet was restored in a few days and she returned to her work. On the day before her final leaving of Mexico City she started for Vera Cruz with a friend with no intention of leaving the country, but when nearing Vera Cruz the intelligence reached them that the city had that day been taken by the Americans. The train dispatched back to Mexico City while the foreigners aboard, to say the least, did not receive the usual courteous treatment accorded them by the natives. They reached the city however, safely, the next morning at ten o'clock and were taken to Vera Cruz the same night on a train under the British flag. It was while on this train that the most threatening treatment was accorded the refugees and it is doubtful whether they had lived to tell the story had it not been for the protection afforded them by the Union Jack. Miss Gladden says it was good to see the American flag in Vera Cruz.

The opportunity to hear Miss Gladden at the church tonight will doubtless be taken advantage of by many of our people.

Ever have a "low-down" pain in the back? In the "small" right over the hips? That's the home of backache. If it's caused by weak kidneys, Use Doan's Kidney Pills. Brainerd people testify to their worth. Read a case of it: Charles D. Erickson, 1103 E. Oak St., Brainerd, Minn., says: "I was annoyed at night by kidney weakness. My back ached awfully, and it was hard for me to get around. For several weeks I couldn't do any work. I doctored, but got no benefit until I procured Doan's Kidney Pills at H. P. Dunn's drug store. They soon fixed me up in good shape." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Erickson had. Foster-McBum Co., Props., Buffalo, N. Y.

### AS THE MATTER STANDS

Brainerd Team Carries No Correspondent With Them and So Gets No Outside Mention

Brainerd traveled to International Falls Friday night and played two games, one on Saturday and one on Sunday, winning both, not a mention of the same was made in any outside paper by International Falls. The first game was an utter rout, 16 to 0, so much so that no reference to the score was even made in the home paper, the International Falls Daily Journal.

Brainerd traveled without a press correspondent and so never got an outside mention anywhere. Which conveys some moral.

"Our baseball fans were treated to another high class game Sunday when the locals met Brainerd at Athletic park. OFFERS HIS SERVICES FREE  
OF CHARGE

Dr. Doran licensed by the state of Minnesota for the treatment of deformities and all nervous and chronic diseases of men, women and children, offers to all who call on this trip consultation, examination, advice free except the expense of the medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that his treatment is reasonably sure and certain in its effect.

According to his system no more operations for appendicitis, gall stones, tumors, goitre or certain forms of cancer.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys or bladder, catarrhal deafness, rheumatism, sciatica, malaria, bed-wetting, leg ulcers, weak lungs and those afflicted with long standing, deep-seated chronic diseases, that have baffled the skill of the family physicians, should not fail to call.

If you have kidney or bladder trouble bring a two ounce bottle of your urine for examination.

No matter what your ailments may be, no matter what others have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see him at once. Have it forever settled in your mind. If your case is incurable he will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself and friends or relatives, who are suffering because of your sickness, as a visit at this time may stop the disease and save your life.

Remember, this free offer is for one day only.

## TO SNAPSHOT SUN 20,000 FEET UP

Professor Todd Will Photograph  
Rays During Eclipse.

TO SET ALTITUDE RECORD.

Hopes to Solve Mystery of Sun Which  
Has Baffled Astronomers For Ages.  
Amherst Professor Has Had Considerable  
Experience in Ballooning and  
Is Expert Photographer.

Professor David Todd of Amherst college has sailed from New York for the purpose of carrying out a unique experiment in Riga, Russia, next month. Professor Todd intends to ascend 20,000 feet in an aeroplane and make photographs of the sun's rays during an eclipse which will occur in August.

The announcement caused much interest in aviation circles, inasmuch as in order to carry out his plan Professor Todd will have to set a new mark for an altitude record, says the New York Tribune. The present record is a trifle over 19,000 feet, and in making it the aviators found it necessary to use oxygen helmets and other methods to prevent being overcome by the changes in pressure incidental to the high altitude.

Professor Todd has had considerable experience in ballooning and is an expert photographer. If he succeeds in finding an aviator and a machine capable of taking him to the great height mentioned above there is a possibility of his hanging up a new mark for both aviators and photographers to shoot at. Professor Todd expects to solve the mystery of the corona of the sun, which he has baffled astronomers for ages. Before he sailed he said:

"There are two predominant reasons for my selection of an aeroplane to study the eclipse, which will occur on Aug. 20 and 21 and will be visible only partly in the United States. The first reason is because unfavorable weather conditions could make my long trip and laborious preparations all result in vain. I can rise easily above any of these factors in an aeroplane and will go just as high as a French aeronaut will dare to carry me.

Expects Fine Photograph.

"The second reason is because of the peculiar power of absorbing the light of the corona that is contained in the atmosphere immediately surrounding the earth. From the ground it is impossible to reproduce the corona on a photographic plate with any absolute accuracy. And the correctness of reproduction means much toward solving the mysteries of the phenomenon.

"Twenty thousand feet above the earth the power of absorption is materially reduced, and I expect to obtain the best photographs of the corona that have ever been taken.

"This is the smallest expedition that I have ever taken. My wife, my daughter Millicent and one or two immediate members of my family will form the party. My first work after reaching Riga will be to select a site for observation and pick out a suitable place for the starting and landing of the aeroplane. The Russian government has co-operated with me most graciously, having furnished passports, free transportation for my party and instruments and offering the services of a guide and interpreter.

Paris and engage an aeronaut and aeroplane, not anticipate any difficulty in engaging one, for I feel that the spirit of the undertaking will appeal particularly to the inherent love for scientific advancement that seems to be a part of every Gaul.

"Now, just bear in mind that the eclipse is due to occur at approximately 12:30 o'clock in Riga, which would be about 7:30 o'clock in the morning in New York, and that it will last only two minutes and fourteen seconds. Everything that is to be done must be planned to the minutest detail."

The mystery of ages which Professor Todd's photographs may solve is whether the great hands and streamers of pale light, some straight and some curved, proceed from the gigantic upheavals of vaporized metals and gases in the sun itself and are reflected to the earth by comparatively cold gases or concrete particles forming the corona or whether the light comes from incandescent material in the corona.

### THE FIRST TEACUPS.

They Had No Handles, and Saucers Were Used as Covers.

In the middle of the seventeenth century tea was introduced into England, and with it came the Chinese or "china" teacup. Strangely enough, the men who imported it from the orient did not themselves understand the method of its use.

The Chinese put a pinch of tea into a large cup without a handle, filled it with boiling water and then inverted a saucer over the receptacle, within whose rim it closely fitted. The object was partly to retain the heat, but chiefly to prevent the escape of the fragrance of the herb, which the Chinese found most delicious. The infusion was permitted to stand for five minutes, when it was decanted into a second cup without a saucer and daintily sipped.

John Bull, however, emphatically declined to take his tea in Chinese fashion. He liked the appearance of the ornamental ware upon his table, but he insisted on placing the cup in the saucer, like a miniature flowerpot, and used it exclusively to drink from, preparing the beverage in a common instead of an individual receptacle.

In course of time England began the manufacture of cups and saucers, and pictures which have been preserved from the days of the Stuarts show big, flaring cups, four inches across the top, with saucers less than three inches in diameter. By degrees one dwindled and the other expanded, until in the middle of the nineteenth century the opposite extreme was reached, and fashionable tea services had cups only an inch and a half in diameter, accompanied by five inch saucers.

The handle of the teacup came from Mediterranean lands. Originally it was made of thick and strong earthenware and applied to heavy jars and lamps. Its decorative possibilities popularized it with Greek and Roman potters, who extended its use to small amphorae and flagons; but, as the word "amphora" indicates, the handle was double. Single handles crept into use by slow degrees and were probably applied to drinking cups about the time that coffee came into vogue in southern Europe, the beverage being taken almost at the boiling point, so that some device for lifting the cup without burning the fingers was found desirable.—London Tatler.

The handle of the teacup came from Mediterranean lands. Originally it was made of thick and strong earthenware and applied to heavy jars and lamps. Its decorative possibilities popularized it with Greek and Roman potters, who extended its use to small amphorae and flagons; but, as the word "amphora" indicates, the handle was double. Single handles crept into use by slow degrees and were probably applied to drinking cups about the time that coffee came into vogue in southern Europe, the beverage being taken almost at the boiling point, so that some device for lifting the cup without burning the fingers was found desirable.—London Tatler.

### If Kidneys and Bladder Bother

Then Foley Kidney Pills

Overworked kidneys will break down if not helped. When they can no longer protect the blood and the body from the poisons that come to them, then look out for Bright's disease, serious kidney trouble and bladder annoyances. Foley Kidney Pills are your best protection, your best medicine for weak, sore, overworked kidney and bladder weaknesses. H. P. Dunn—Advt. mwf

### Genius.

As diamond cuts diamond and one-horn smooths a second, all parts of intellect are whetstones to each other, and genius, which is but the result of their mutual sharpening, is character too.—Alfred Tennyson.

### There is healing in Foley Kidney Pills

You need a mighty good medicine if once your kidneys are exhausted by neglect and overwork, and you have got it in Foley Kidney Pills. Their action is prompt, healing and tonic. Sound health and sound kidneys follow their use. Try them. M. P. Dunn—Advt. mwf

### Pedagogues and Marriage.

Two bright faced academy boys were discussing their teachers. "Mr. Blank's going to get married, I hear." "Gee, I hope not." "Why?" "Because Mr. Dash got married last year and now he's fierce."—Newark News.

### Fly Fighting in Panama.

As a further safeguard to public health the canal government has proposed that the numerous livery stables in the heart of Panama City be concentrated in one location, where they can be supervised and cleanliness maintained. The present stables are great breeding places for flies.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 15c. Make 24th & 17th July Pills for constipation.

**THERE** are two ways to make a sweet-smelling toilet and bath soap.

One way is to use inferior materials and kill the disagreeable odor with perfume.

The other way is to use such high grade, mild, pure, clean ingredients that no perfume is needed.

Ivory Soap is made in this way. No perfume is sweeter than the natural odor of this white, pure cleanser. *Ivory smells clean.*
